

Create Your Own Handprint Tree!

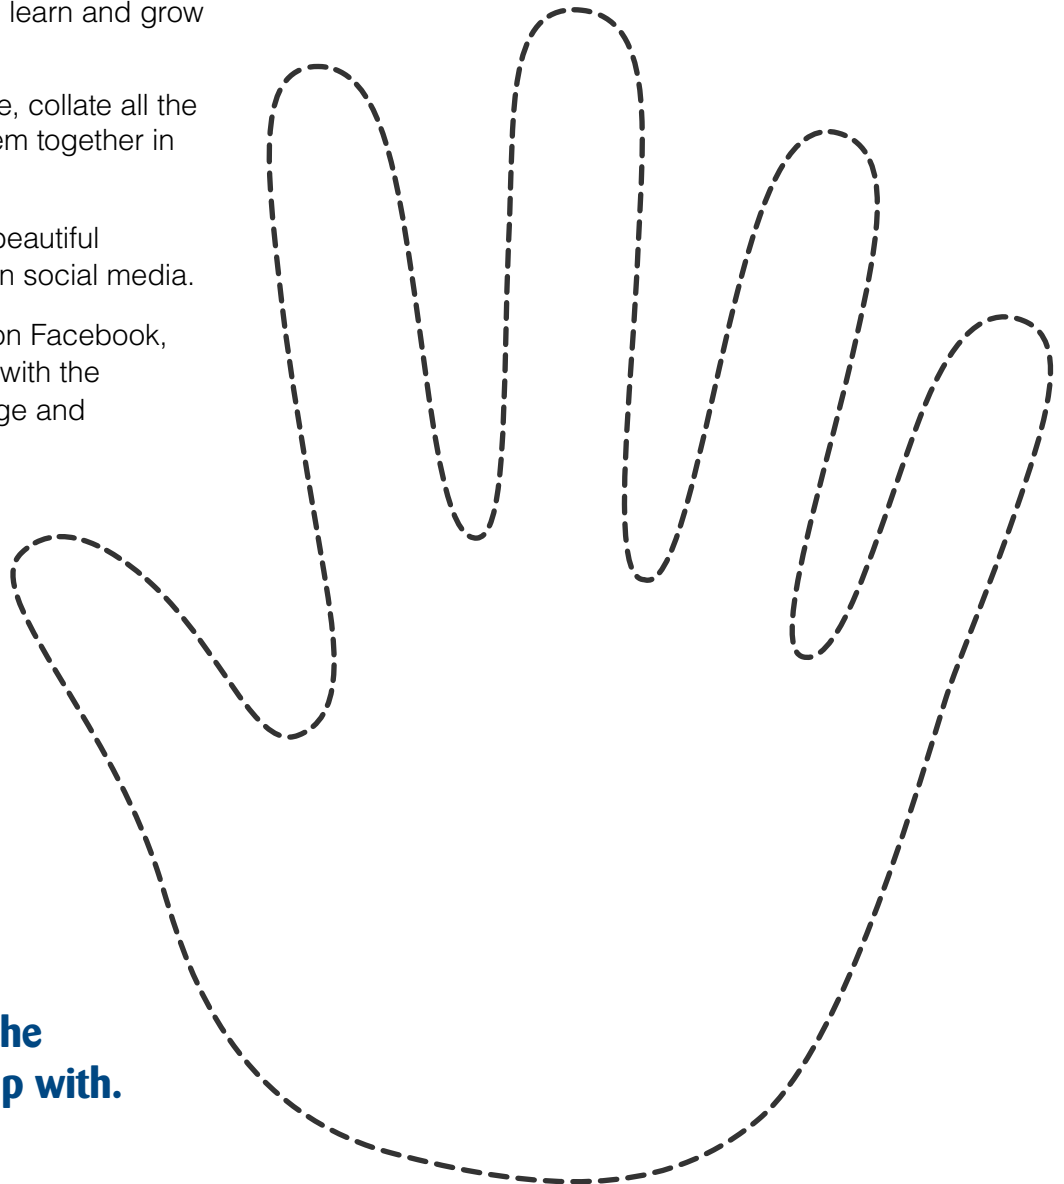

Get your friends, colleagues or peers together to create your own handprint tree.

Each individual has their own unique handprint on our community. This month, we want the community to come together, get creative and grow together.

How to Make Your Handprint Tree:

- 1 Using your choice of art supplies, colour the handprint below in a spectrum of colour, or get paints in a range of colours and do your own handprint onto paper.
- 2 You may like to integrate your name or messages on how you learn and grow together.
- 3 Once everyone is done, collate all the handprints and put them together in the shape of a tree.
- 4 Snap a photo of your beautiful creation and share it on social media.

Don't forget to tag us on Facebook, Instagram or LinkedIn with the hashtags #IgniteChange and #LightUpTheSpectrum.

We can't wait to see the creations you come up with. Have fun!
